

Springdale

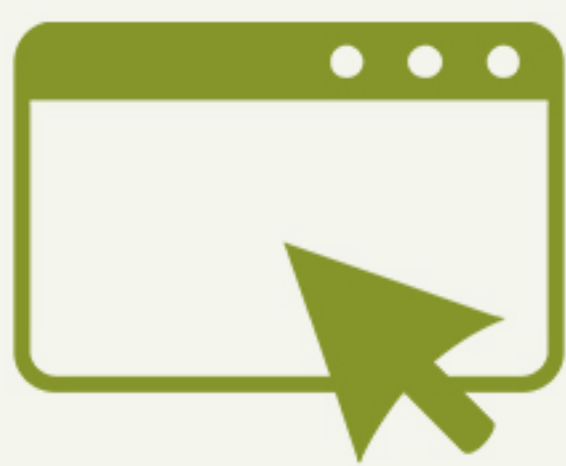

Retirement Living

We're glad that you're interested in joining our family. To help you on this journey we have compiled the following steps.

Contact Community Intake toll free at *1-833-210-8491*. After an initial discussion, the intake nurse can advise if you are a likely candidate for subsidy.

An appointment with a Public Health Nurse will be scheduled for a physical assessment. At this point of the process you will be identified as needing either Level 0, Level 1, Level 2 or Enhanced Care based on your individual needs.

Central Health will provide you with an application for financial assistance that you will need to complete and submit. This will determine the amount of subsidy you are eligible for.

We welcome you home.

We have helped hundreds of residents through this process and have the knowledge required to navigate each step of the way. If you need assistance, please let us help you.
